

Introducing Dr. Hamilton

The EyeDoctors and People's Optical proudly welcome the newest addition to the practice, Dr. Erin Hamilton. Dr. Hamilton is a Kansas native who currently lives in Shawnee with her husband Justin and their two Yorkshire terriers, Rufus and Oliver. She received her undergraduate degree from Kansas State University. She then went on to complete her Doctor of Optometry Degree at the University of Missouri St.- Louis.

While attending Optometry school Dr. Hamilton spent two years as a stylist in an optical boutique in the St. Louis Galleria. This experience outside of the exam room gives her a unique edge.

Dr. Hamilton's knowledge of her patients vision needs is complimented by her ability to assist them with appropriate yet stylish frame choices. Some of her favorite frame lines include Prada's collection of classic, yet trendy styles as well as the sleek, urban look of ProDesign. This combination of education and fashion sense makes Dr. Hamilton more than your average optometrist. Call now to schedule your eye exam or free style consultation.
