

Is this possible??

FOCUS ON THE DOT IN THE CENTRE AND MOVE YOU HEAD BACKWARDS AND FORWARDS.
WEIRD HEY...

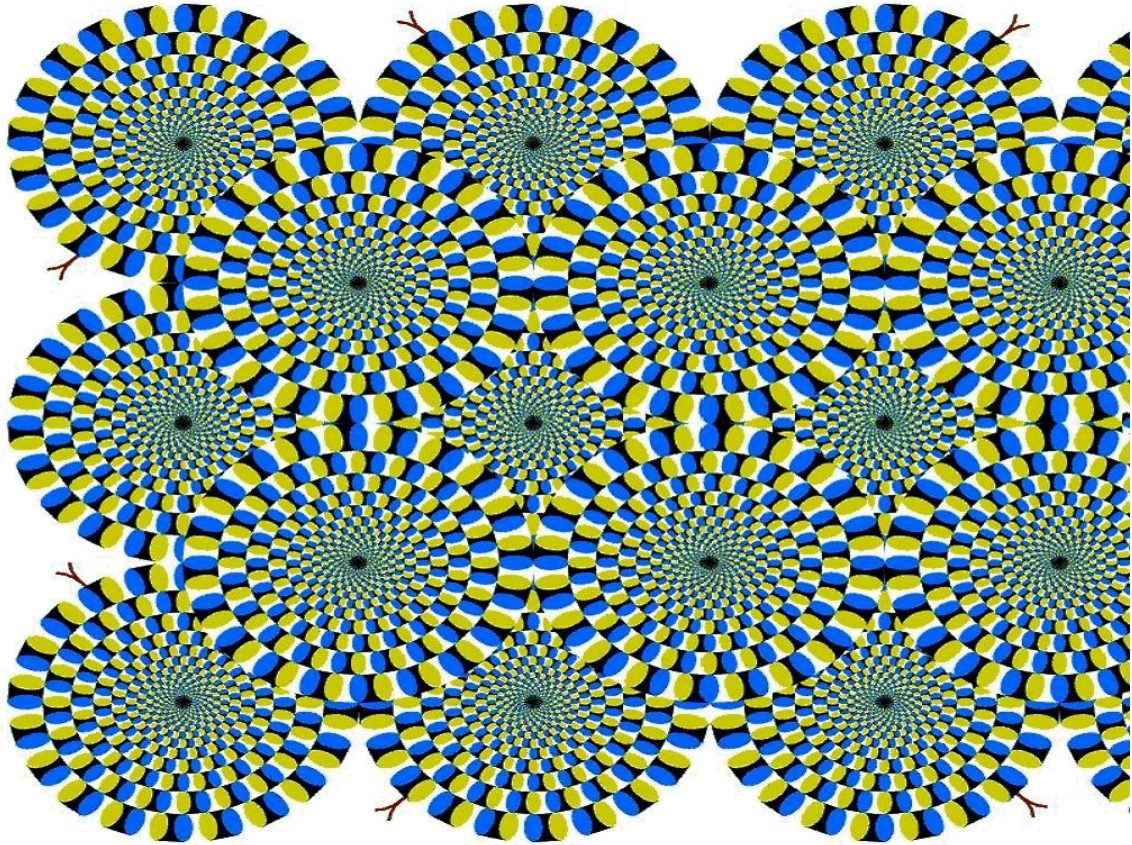

Are the purple lines straight or bent??

Notice the gray areas in between the squares??

Do you see a man's face? Do you also see a word? (Hint: tilt your head a little to the right- the word starts with the letter "L")

This picture is not animated. Your eyes are making it move. To test this stare at one spot for a few seconds and everything will stop moving. Move your eyes around the picture and everything starts up again!

This is without a doubt one of the coolest PC-Illusion, I have seen so far.

Follow the instructions:

- 1) Relax and concentrate on the 4 small dots in the middle of the picture for about. 30-40 secs.
- 2) Then, take a look at a wall near you (any smooth, single coloured surface)
- 3) You will see a circle of light developing
- 4) Start blinking your eyes a couple of times and you will see a figure emerging...
- 5) What do you see? Moreover, who do you see?
